

BOY SCOUTS OF AMERICA®
SAN DIEGO-IMPERIAL COUNCIL

Scouting family,

As always the Health and Safety of all of our Scouts is our highest priority. The latest news on COVID-19 reminds us that Youth Protection extends into all facets of care.

We have shared separately that the San Diego Department of Health and the CDC have issued strong directives about group meetings and the need for social distancing. Our council leadership has been in consultation with our council health supervisor and has determined that certain actions are now necessary.

The San Diego – Imperial Council has determined to close all facilities for group events and meetings for the month of March. Additionally, all district and council meetings and trainings are suspended for the month of March and, when possible, will be rescheduled at a later date.

Our council offices will remain open for operations during this time and our field staff will continue to be available for unit support. Likewise, council governance will continue throughout this time.

We regret any inconvenience this causes to individuals and units. We greatly appreciate your support of Scouting and your understanding during this time. We will continue to share relevant updates with you as they become available.

Sincerely,

Tim Thomton
Scout Executive
