

Dear Scouting Family,

As California continues under the stay-at-home [Executive Order N-33-20](#), The County of San Diego has also extended [their directives](#) indefinitely.

In recognition and adherence to this executive order the San Diego–Imperial Council will remain closed at all council facilities including our council office. The National BSA Scout Store, located at our office facility, will also be closed.

All council activities through the end of April have been moved to virtual meetings, rescheduled or cancelled. You can contact the specific activity’s leadership for more details.

San Diego Summer Camps are still planning and preparing to be operational as scheduled. We will continue to update you with further information as we head into April.

Most of the council committees are continuing to meet virtually and your full council staff is working remotely and is ready to assist you with your Scouting needs. The staff contact information is provided on our [council website](#).

The creativity of our Scouting units is inspiring. While this order is in effect all meetings are to be conducted “virtually” using available technology. Be sure to visit our [Scouting At Home](#) resource page.

We continue to encourage you to keep this updated information in mind when determining your unit programming and thank you for your commitment to our future through service to Scouts.

Yours in Scouting,

Tim Thomton  
Scout Executive
