

Dear Scouting Family,

In keeping with the abundance of caution, our facilities including camps, service center and Scout Shop remain closed. All council activities through May 15<sup>th</sup> have been moved to virtual meetings, rescheduled or cancelled. You can contact the specific activity's leadership for more details.

Many trainings and district activities are available virtually. Check with your unit commissioner for additional information.

San Diego Summer Camps are still expecting to be operational as scheduled. We hope that you are making plans to participate with your pack or troop.

Most of the council committees are continuing to meet virtually and your full council staff is working remotely and is ready to assist you with your Scouting needs. The staff contact information is provided on our [council website](#).

Be sure to visit our [Scouting At Home](#) resource page. It is regularly updated with new ideas for the units and families alike.

We continue to encourage you to keep this updated information in mind when determining your unit programming and thank you for your commitment to our future through service to Scouts.

Yours in Scouting,

Tim Thomton  
Scout Executive
