

Dear Scouting Family,

The health and safety of our Scouts, volunteers and staff continue to be our highest priority. Our council service center and Scout Shop remain closed until it has been determined that we can reopen in full compliance with all local and state directives.

All functions of the service center can be done remotely. Your local district executive will be working remotely to assist units with their Scouting needs. You can find your district executive's contact information on our [council website](#).

All council properties will remain closed for day and overnight activities through June 15th. Likewise, through June 15th, all district and council activities will be conducted virtually or rescheduled when possible, otherwise they are cancelled.

All unit meetings and activities are to be conducted "virtually" using available technology.

We continue to encourage you to keep this updated information in mind when determining your unit programming and thank you for your commitment to our future through service to Scouts.

Yours in Scouting,

Tim Thomton
Scout Executive
