Wood Badge Course #3-49-24

Advanced Leadership Training for Adult Scouters

April 19-21

&

May 18-19

@

Mataguay Scout Ranch

The Wood Badge curriculum covers a wide range of topics, including:

- The Scouting method
- Leadership theory and practice
- Team building
- Communication skills
- Program development
- Youth protection
- Outdoor skills

In addition to the formal curriculum, Wood Badge also emphasizes the importance of experiential learning, reflection, and personal growth. Participants are encouraged to share their experiences and ideas, and to learn from each other.

Wood Badge is a challenging but rewarding experience that can help adult leaders become more effective in their roles. It is an investment in your own leadership development, and in the future of Scouting.

BASIC CHAINSAW TRAINING

Feb 3, 2024

Fee: \$15

Saturday, Feb 3 classroom 8 am-4 pm
MSR 27955 Highway 79 Santa Ysabel, CA 92070

Boy Scouts of America properties rely on chain saws to help clear trails, remove deadfalls, clear timber, and stockpile wood for campfires and heating buildings. To allow for this use, specific guidelines for safety have been adapted for use at all BSA activities. *The National Camp Accreditation Program Standards*, No. 430-056, require that any person who operates a chain saw be approved by the council designee. Chainsaw operators must be at least 21 years old and meet one of the following requirements: be a professional forester with current credentials and liability insurance; be a certified arborist with credentials; have written documentation of training in chain saw techniques from either (1) a state or federally recognized chainsaw training course approved by the council or (2) the BSA Chain Saw Basic training course, No. 430-136.

BSA Chainsaw training is a 12-hour course and it will cover 3-4 hour of classroom saw safety operations, and field cutting. Participants will need to attend both class days to get the certification, be at least 21 years old, registered with BSA, and bring a current [BSA Annual Health and Medical Record Parts A and B](#). You will be required to provide all cutting and safety gear, and other items listed on the registration site. (There are no training saws or protective gear issued)
